

THE BEANS, THE ORIGINAL TASTE OF UNRIVALLED QUALITY.

Mokador selects only the best plantations in the world to create its own blends. Mokador blends are created with the guidance of experts in the green coffee sector in order to create the right formula and blends of the different coffee varieties.

The consistency of the performance in the cup and an optimal dispensing rate enable the maximum amount of coffee to be dispensed.

THE PACKAGING TECHNOLOGY

In 2017 Mokador set up a new packaging plant dedicated to 500 gr. and 1000 gr. coffee beans products. Thanks to its special packaging technique that enables to preserve the freshness and the fragrance of the blends, this new plant has significantly improved the production performances.

This technique involves leaving a little empty space named "soft vacuum" in the packaging with a oneway valve, which guarantees an internal controlled atmosphere with an O_2 oxygen content < 10 %.
